

AI Is Already Here: Quick Reference Guide

5 Places AI Shows Up at Work

1. **Email & Communication Tools** - AI-powered suggestions, auto-replies, smart compose
2. **Scheduling & Calendar** - Meeting optimization, time zone management, availability
3. **Customer Service** - Chatbots, automated responses, ticket routing
4. **Data Analysis** - Automated insights, trend detection, predictive analytics
5. **Hiring & HR** - Resume screening, candidate matching, performance analysis

Key Takeaways:

- AI systems are already present in many workplaces
- Proactive engagement and questioning are essential
- Human judgment remains critical even with AI insights
- Compliance must be built into AI adoption from the start
